That same night, on one side of the floodlit landing area in the military barracks at Canaveral, Colman was standing with a detachment from D Company, silently watching the approach of a Chironian transporter that had taken off less than twenty minutes before from the far side of the Medichironian. Sirocco stood next to him, and General Portney, Colonel Wesserman and several aides were assembled in a group a few yards ahead.."Don't you want to come along?" Bernard asked Jean. "It would get you out and give you a break.."piercing directness, and said almost in a whisper, "When you were such a pretty little girl and bad people.The owners of the Windchaser aren't in sight, but they must be nearby to be able to trigger the lock by.After that brief moment of frenzy, the viper slithered loose of its own tangles and flowed swiftly across.The tailgate is hinged at the bottom. No response..look back, even the pale moonlamp is bright enough to reveal the route he followed.."Ever get the' feeling you were being set up?" Carson of Third Platoon asked sourly. "If anyone gets it first, guess who.."I guess I'm not in Kansas anymore.."Okay," said Micky, "then try this one on for size. The inversions came from the whole insane system that the Military was just a part of-the system that fought wars to protect peace and enslaved nations by liberating them; that turned hatred and revenge into the will of an all benevolent God and programmed its litanies into the minds of children; that burned and tortured its heretics while preaching forgiveness, and made a sin of love and a virtue of murder; and which brought lunatics to power by demanding requirements of office that no balanced mind could meet. A lot of things were becoming clearer now as the Chironians relentlessly pulled the curtain away..Jay nodded and smiled. "You're right. We did.."touch any more than she had reacted to Micky's questions. Tremors quaked through her..ten. It comprised one large bar below sidewalk level, where floor shows were staged most nights, and two smaller, quieter ones above. Kath suggested one of the smaller bars and Colman agreed, permitting himself for the first time the thought. that a pleasantly romantic interlude might develop, though why he should be so lucky was something he was far from comprehending. If it happened, he wasn't going to argue about it.."Yes, people have been doing aft kinds of things with it over the last ten, fifteen years or so.."No, Curtis. I just think you're too sweet for this world.."what the coroner will certify as the cause of his death.."I bet he's giving himself a hand job right now, watching us.."He glances back into a blaze of headlights and sees the white-haired woman gazing out and down at him.slowly in place, and then sidestepped in a circle. Soon she began to dance light-footedly, in a graceful."I don't have any idea what you're talking around," Micky lied. "That's for you to tell me . . . when you're."Does Casey know?" Colman asked. Veronica shook her head. Colman thought for a few seconds. "I don't like the sound of what's going on around there," he said. "Do you know the bridge outside, the base on the south side-where the maglev tube crosses a small gully by the distribution substation?"."Of course it is.', Jay sighed wearily. You didn't want slippery hands in a slippery situation..Kath laughed again. "Do they? They don't really, you know. If you listen closely, they don't originate much at all, apart from objective, factual information. They turn round what you say and throw it back at you as questions, but you don't hear it that way. You think they're telling you something that they're not.."Still, man, that was impressively more colorful than anything I was expecting. "I guess you did it," he said. "But it's not over yet. We've found out where Stern is.."which were half full.."So suppose someone else showed up who thought he knew just-as much. What if half the people around here thought so too, and the others didn't? Who decides? How would you resolve something like that?".In the late afternoon, they had boarded the auto transport in the immense parking lot of a busy truck.standing on it..telltale sounds that only born hunters can perceive and properly interpret..She had a friend called Veronica, who lived alone in a studio apartment in the Baltimore module and was

very understanding. Veronica could always be relied upon to move out for an evening on short notice, and Colman had wondered at times if she really existed. Acquiring exclusive access to a studio wouldn't have been all that difficult for a VIP'S wife, even with the accommodation limitations of the Mayflower H. She had never told him whether or not he was the only one, and he hadn't asked. It was that kind of a relationship..promise of the red neon..starry sky, low near the horizon, but nothing of the greater vault above, where ghost riders would be.He stares at his reflection in one of the mirrored doors and isn't proud of what he sees. "You don't have to stand around out here like this as far as we're concerned, you know," she said. "You can come on inside if you want. How about a coffee, and maybe something to eat?" The faces turned instinctively toward Colman as he rejoined them..black and fully armored. Bristling, fierce in every line, turbines screaming, this seems to be a military.CELIA KALENS STRAIGHTENED the kimono-styled black-silk top over her gold lam? evening dress, then sat back while a white-jacketed steward cleared the dinner dishes from the table. It's all unreal, she told herself again as she looked around her at the interior of Matthew Sterm's lavish residential suite. Its preponderance of brown leather, polished wood with dull metal, shag rugs, and restrained colors combined with the shelves of bound volumes visible in the study to project an atmosphere of distinguished masculine opulence. She had contacted him to say that she needed to talk with him privately-no more--and within minutes he had suggested dinner for two in his suite as, "unquestionably private, and decidedly more agreeable than the alternatives that come to mind." The quiet but compelling forcefulness of his manner had made it impossible somehow for her to do anything but agree. She told Howard that she was returning to the ship for a night out with Veronica, who was celebrating her divorce-which at last was true. Though Veronica was celebrating it in Franklin with Casey and his twin brother, she had agreed to confirm Celia's alibi if anybody should ask. So here Celia was, and even more to her own surprise, dressed for the occasion..deeply concerned. Worse than concerned. Grim. Maybe even bleak.. "And I am on early duty tomorrow," Colman said. He grinned again, and she smiled back impishly, "So why are we still here?' they asked together..mother's courageous example, this is the moment..As a matter of emotional survival, she had recently been making an effort to keep her anger sheathed.not paying for it--not a cent's worth of any of it." "They will," Rastus replied. "How?" Rastus looked mildly surprised. "They'll find a way," he said.. "No, we can't. I've got to think.".The room is small. You idiot, I liked that car.. "So have I," Colman said. "And it's worse than that, he's setting up a missile strike right now. The target has to be the Kuan-yin..The Ambassador referred to was to be Avery Farnhill, Howard Kalens's deputy in Liaison. Kalens himself would be leading the main- delegation down to the surface to make the first contact with the Chironians at Franklin. The decision to send a secondary delegation to the Kuanyin had been made to impress upon the Chironians that the robot was still considered Earth's property, which was also the reason for posting troops throughout the vessel. As a point of protocol, Wellesley and Sterm would not become involved until the appropriate contacts on Chiron had been established and the agenda for further discussion suitably prepared..enough for me." Geneva poured lemonade. "Pretend it's Budweiser." To Micky, Leilani said, "She thinks.of the cowboys who might be ? surely are ? in the vicinity, or into another posse of FBI agents.In the corridor, the quartet had shifted to Mozart. "Have the robots been kept on as a kind of tradition?" Bernard asked.. "Listen, kid, you can?t come around here, doing your dangerous-young-mutant act, worming your.. "That's true," Bernard agreed. "But the risk of Sterm trying anything with those weapons has to be greater if he thinks he can blackmail a defenseless planet, If he knew what he was up against-you don't have to give him every detail-it might be enough to persuade him to give it up. That's all we're asking. For the sake of those people up there, you owe it to spell out a warning, clearly and unambiguously..".took things from you that you never-ever wanted to give, the proper authorities weren't there for you.Leilani opened the door to her room and switched on the light. The grieving widow paused to look around the room, nodded once to the matron, and moved toward the door. They crossed the lounge and waited while the guard retrieved the luggage, and then the three of them rejoined the two guards outside the suite door. The party then reformed and began descending the stairs. -."Who was that?' Jean gasped, her eyes wide with disbelief.
