Only at the end of it did she think to turn back to see the light shine through the thousand leaves of the tree carved in the high door in its bone-white frame..It was only illusion, of course, but it checked him a moment in his spell, and then he had to undo the illusion, bringing back the door frame around him, the walls and roof beams, the gleam of light on crockery, the hearth stones, the table. But nobody sat at the table. His enemy was gone.."Ach, it's a witch's den," Crow said, at the whiff of herbs and aromatic smoke, and he stepped back.."How can I explain? To put it simply, one makes dresses, clothing in general --.The boy's drop-jawed stare irritated Hemlock, though he knew it shouldn't. Wizards are used to overweening confidence in the young of their kind. They expect modesty to come later, if at all. "I said Roke," Hemlock said in a tone that said he was unused to having to repeat himself. And then, because this boy, this soft-headed, spoiled, moony boy had endeared himself to Hemlock by his uncomplaining patience, he took pity on him and said, "You should either go to Roke or find a wizard to teach you what you need. Of course you need what I can teach you. You need the names. The art begins and ends in naming. But that's not your gift. You have a poor memory for words. You must train it diligently. However, it's clear that you do have capacities, and that they need cultivation and discipline, which another man can give you better than I can." So does modesty breed modesty, sometimes, even in unlikely places. "If you were to go to Roke, I'd send a letter with you drawing you to the particular attention of the Master Summoner.".The white-haired man looked at the two women. Other people had come forward, and there was some quiet talk among them..true as he said it. Perhaps he wanted to spite them. Perhaps he wanted to get rid of them..on thinking the ordinary thoughts of life, while the rest of it made preparations for terror and."How do you know?" she whispered..The young man, called Ivory, did not actually have his staff and cloak yet; he explained that he was to be made wizard when he went back to Roke. The Masters had sent him out in the world to gain experience, for all the classes in the School cannot give a man the experience he needs to be a wizard. Birch looked a little dubious at this, and Ivory reassured him that his training on Roke had equipped him with every kind of magic that could be needed in Iria of Westpool on Way. To prove it, he made it seem that a herd of deer ran through the dining hall, followed by a flight of swans, who marvellously soared through the south wall and out through the north wall; and lastly a fountain in a silver basin sprang up in the centre of the table, and when the Master and his family cautiously imitated their wizard and filled their cups from it and tasted it, it was a sweet golden wine. "Wine of the Andrades," said the young man with a modest, complacent smile. By then the wife and daughters were entirely won over. And Birch thought the young man was worth his fee, although his own silent preference was for the dry red Fanian of his own vineyards, which got you drunk if you drank enough, while this yellow stuff was just honeywater..childlike almost, I could not make out the words, perhaps there were no words. "Tell us how you came here.".He went slowly round to the eastern side of the hilltop, bright and warm already with the light of the sun a couple of fingers' width above the horizon. Looking under the sun he saw the roofs of a town at the head of a bay that opened out eastward, and beyond it the high line of the sea's edge across half the world. Turning west he saw fields and pastures and roads. To the north were long green hills. In a fold of land southward a grove of tall trees drew his gaze and held it. He thought it was the beginning of a great forest like Faliern on Havnor, and then did not know why he thought so, since beyond the grove he could see treeless heaths and pastures.file:///D:/Documents%20and%20Settings/harry/D...20%20LeGuin%20-%20Tales%20From%20Earthsea.txt (5 of 111) [2/5/2004 12:33:30 AM].larger than she was, enormously larger. She could reach out one finger and destroy him. He stood.The sense of huge strength was draining out of her. She turned her head a little and looked down, surprised to see her own brown arm, her rolled-up sleeve, the grass springing cool and green around her sandaled feet. She looked back at the Patternner and he still seemed a fragile being. She pitied and honoured him. She wanted to warn him of the peril he was in. But no words came to her at all. She turned round and went back to the streambank by the little falls. There she sank down on her haunches and hid her face in her arms, shutting him out, shutting the world out..into the street.
