From my perspective, psychology is just one more of those easy sources of false meaning-like sex, money, and drugs. But I will admit to knowing a thing or two about evil." of the deceased. This memorial was modest, neither large nor complicated in design. Nevertheless, often the carvers in this line of business followed days after the morticians, because the stones to which they applied their craft demanded more labor and less urgency than the cold bodies that rested under them..Kathleen had

never heard a religious calling described in such odd words as these, and she was surprised, indeed, to hear a priest refer to God as "strange." Although the only light on the back porch came from the pale beams that filtered out through the curtains on the kitchen windows, all these faces seemed luminous, almost preternaturally aglow, like the kiln-fired countenances of saints in a dark church, lit solely by the flames of votive candles. The rain—a music of sorts, and the jasmine and incense, and the moment sacred. To her mother, Celestina said, "What did you mean when you said you'd heard all about Barty here?" And now she didn't need him anymore. He gazed at her face, held her cooling hand; his anchor was slipping away from him, leaving him adrift. In July 1967, at two and a half, he finally contracted his first cold, an off-season virus with a mean bite. His throat was sore, but he didn't fuss or even complain. He swallowed his medicine without resistance, and though he rested occasionally, he played with toys and paged through picture books with as much pleasure as ever. BASEBALL CAP IN HAND, he stood on Agnes's front porch this Sunday evening, a big man with the demeanor of a shy boy. Suddenly, even in the heart of a great city, the alleyway seemed as lonely as an English moor, and not a smart place to seek asylum from a vengeful spirit. Casting aside all pretense of self-control, Junior sprinted for the next street, where the sight of multitudes, swarming in winter sunshine, filled him not with paranoia or even uneasiness, anymore, but with an unprecedented feeling of brotherhood. "A wonderful wedding," Celestina promised her, taking a pair of pajamas from a dresser drawer. . . must either change her mind or commit herself to a more difficult and challenging life than any she had envisioned only this morning. . . His artificial eyes were almost a month old. He'd been through surgery to have the eye-moving muscles attached to the conjunctiva, and everybody told him that the look and movement were absolutely real. In fact, they had told him this so often, in the first week or two, that he became suspicious and figured that his new eyes were totally out of control and spinning like pinwheels. Frustrated on many levels, Junior hurried to a parking lot one block from the detective's office, where he'd left his new Chevrolet Impala convertible. This Chinese-red machine was even more beautiful when wet with rain than it had looked polished and pristine on the showroom floor. He could have killed someone named Henry or Larry, without risk of creating a Bartholomew pattern that would prickle like a pungent scent in the hound-dog nostrils of Bay Area homicide detectives. But he restrained himself. He decided to use the tool just three times on each deadbolt before trying the door. The less noise the better. Maybe luck would be with him. Junior didn't make the mistake of thinking that Magusson's new conciliatory attitude meant they were friends, that confidences could be shared or truths exchanged. The money-grubbing toad's only real friend would always be the one he saw in a mirror. If he discovered that Junior was having a great time post-Naomi, Magusson would store the information until he found a way to use it to his advantage. He didn't want to lean inside and peer over the front seat. He had no weapon. He would be unbalanced, vulnerable. In the time of the kings, mages gathered in the court of Enlad and later in the court of Havnor to counsel the king and take counsel together, using their arts to pursue goals they agreed were good. But in the dark years, wizards sold their skills to the highest bidder, pitting their powers one against the other in duels and combats of sorcery, careless of the evils they did, or worse than careless. Plagues and famines, the failure of springs of water, summers with no rain and years with no summer, the birth of sickly and monstrous young to sheep and cattle, the birth of sickly and monstrous children to the people of the isles—all these things were charged to the practices of wizards and witches, and all too often rightly so. Barty's reading and writing skills appeared to be related to his talent for math, as well. To him, language was first phonics, a sort of music that symbolized objects and ideas, and this music was then translated into written "syllables using the alphabet—which he saw as a system of math employing twenty-six digits instead of ten. Turning in Celestina's lap, Angel said, "Smell," and held the index finger of her right hand under her mother's nose. Junior was not immune to traditional logic, but in this case he recognized the superior wisdom of Zedd's philosophy. His dread of Bartholomew and his gut-level animosity toward a child he'd never met defied all reason and exceeded simple paranoia; therefore, it must be purest, infallible animal instinct. Dr. Zedd's death, just last Thanksgiving, had been a blow to Junior, a loss to the nation, to the entire world. He considered it a tragedy equal to the Kennedy assassination one year previous. All three of these sorry excuses for human beings were money mad. Rudy owned six successful used-car dealerships and—his pride—a Ford franchise selling new and used vehicles, in five Oregon communities, but he liked to live large; he also visited Vegas four times a year, pouring money away as casually as he might empty his bladder. Sheena enjoyed Vegas, too, and was a fiend for shopping. Kaitlin liked men, pretty ones, but since she might be mistaken for her father in a dimly lighted room, her hunks came at a price. Earlier, before leaving home, he had taken a preventive dose of paregoric. For now, at least, his bowels were quiet.
