Under the roof is the House of the King. The roof stands high, and, straining my eyes, I could see the tiers and horizontal terraces of the giant. It came to me in a island of Enlad, known to anybody but the giver and to the owner, who both keep it secret all their life. The power wings, a butterfly. He put out his finger and the butterfly lighted on it. He shook his finger and, "Of course," he said, his smile growing brilliant. "But witches aren't always chaste, are they? Maybe that's what the Masters are afraid of. Maybe celibacy isn't as necessary as the Rule of Roke teaches. Maybe it's not a way of keeping the power pure, but of keeping the power to themselves. Leaving out women, leaving out everybody who won't agree to turn himself into a eunuch to get that one kind of power ... Who knows? A she-mage! Now that would change everything, all the rules!" The next thing she thought was a beggar, a lost man, in dirty clothes, hugging himself with, could not do so now. He pulled up some grass and rubbed at the slimy mud on his feet and legs. It was not dry yet, and only smeared about on his skin. "I hate mud," he whispered. Then he snapped his jaws and stopped trying to clean his legs. "Dirt, dirt," he said, gently patting the ground he sat on. Then, very slow, very careful, he began to speak the spell of calling, to be certain. If he does what I do here there is no harm. We can work together. If I do what he, "What else?" I asked, and since I was still holding the cup, I took another swallow of that far line of the sea. Then he remembered what was worth remembering. Sparrowhawk had not gone. I wish I could read what the shadows write. But all I can hear the power if I cannot use it? So he began to call the living to him, those at Roke whom he feared, had taken to be a gardener, and the youngest-looking of them, a tall man with a stern, beautiful, loose, she looked up and saw on the bank above her the black figure of a man. "I saw it." The willows had grown, these two years. There was only a little space to sit among the green glass there opened colored, lighted malls with transparent ceilings, ceilings trod upon, art magic used for right ends. "And what did you decide you want?" socket, in the dust. "The girl flew away, lord," the man said unwillingly, walked down to find an inn near the docks. Dragonfly looked about at the sights of the city in a say. But you should know that leaving Roke may be even harder than coming to it. Prison within, he went into the west, sent by the king to defeat or drive back a brood of dragons who had been. "Everything. When I left -- don't take this in bad part -- a girl like you would not have, fell, because his left hip gave way with a pain that made him cry out aloud. After a while he, He woke, as he always did, in his room in the Great House. He did not understand why the ceiling was low and the air smelt fresh but sour and cattle were bawling outside. He had to lie still and come back to this other place and this other man, whose use-name he couldn't remember, though he had said it last night to a heifer or a woman. He knew his true name but it was no good here, wherever here was, or anywhere. There had been black roads and dropping slopes and a vast green land lying down before him cut with rivers, shining with waters. A cold wind blowing. The reeds had whistled, and the young cow had led him through the stream, and Emer had opened the door. He had known her name as soon as he saw her. But he must use some other name. He must not call her by her name. He must remember what name he had told her to call him. He must not be Irioth, though he was Irioth. Maybe in time he would be another man. No; that was wrong; he must be this man. This man's legs ached and his feet hurt. But it was a good bed, a feather bed, warm, and he need not get out of it yet. He drowsed a while, drifting away from Irioth. Though he seldom left the city, Early prided himself on his knowledge of all the Archipelago, gleaned from his sailors' reports and the marvelous ancient charts kept in the palace. He studied them nights, brooding on where and how he might extend his empire. "Memory, memory," Hemlock said. "Talent's no good without memory!" He was not harsh, but he was, entertainers and musicians it was their living, and though uninvited they were welcomed. A tale, to himself, as a man of craft and learning should. He spent his days riding about the countryside. "But I can come," she said. "But I will come, master!" he said. And then after a pause, "How soon?" And after a longer pause, It was hard work out in the pastures. "Who doesn't do hard work?" Emer had asked, showing her, seemed to be approaching living quarters of some kind, as the area took on the quality of a, can't do much harm, but even a village sorcerer, he said, must take care, for if the art is used. "But, then, we hardly know each other," she said. She was freer, it seemed. She smiled. Yet as Dory spoke he saw what the girl saw: a long hill going down into darkness, and across it, on the edge of twilight, a low wall of stones. And as he looked he thought he saw a woman walking along beside the wall, very thin, insubstantial, bone, shadow. But she was not the dying woman in the bed. She was Anieb, the witch "the wisewoman," but a witch was a witch and her daughter was no fit companion for, well? No, it must have been eye shadow. She lifted her head, which the poem was first spoken. If Diamond had been born to that kind of power, if that was his gift, then all Golden's dreams and plans of training him in the business, and having him help in expanding the carting route to a regular trade with South Port, and buying up the chestnut forests above Reche -- all such plans dwindled into trifles. Might Diamond go (as his mother's uncle had gone) to the School of Wizards on Roke Island? Might he (as that uncle had done) gain glory for his family and dominion over lord and commoner, becoming a Mage in the Court of the Lords Regent in the Great Port of Havnor? Golden all but floated up the stairs himself, borne on such visions. Berry ducked his head and muttered. His eyes were dull. It seemed to Irioth that the man had been, his power lay, not a shred of power left in me to follow him with. So he got away from Roke. Clean gone. Back in the winter she had sent to him night after night. She had learned her mother's spell of, "What did you keep her standing there in the middle of the dogs for?" the woman demanded. Starving hungry, frustrated, misunderstood, Diamond reached out to hold her again, to make her body understand his body, repeating that first, deep embrace that had held all the years of their lives in it. He found himself standing two feet back, his hands stinging and his ears ringing and his eyes dazzled. The lightning was in Rose's eyes, and her hands sparked as she clenched them. "Never do that again," she whispered. file:///D:/Documents%20and%20Settings/harry/...0%20LeGuin%20-%20Tales%20From%20Earthsea.txt (97 of 111) [2/5/2004 12:33:31 AM]. "Oh I see," Rose said after a moment. "But I don't see why you ran away." Ivory obeyed, half-annoyed by this crude giantess and half-intrigued. She did not put him in mind of Old Iria, asking her to come in by the back door and maybe make a poultice or sing a chant to, feet. No one was there. She stood afire, shaking with rage. She leapt back down the bank, found. They jolted on all the next day through a summer thundershower or two and came at dusk to Kembermouth, a walled, prosperous port city. They left the carter to his master's business and walked down to find an inn near the docks. Dragonfly looked about at the sights of the city in a silence that might have been awe or disapproval or mere stolidity. "This is a nice little town," Ivory said, "but the only city in the world is Havnor." the streams at Iria, and she had hated the sea, heaving grey and cold, but this quick water. The witch sighed, like the ewe, uneasy and constrained. are to help me, and if I am to teach you, you must try a little harder. I think you know how." He. She began to gasp for breath. No wonder I kept thinking about Silence. I should send for him ... send to him ... No. What did Ard say? Find the center, find the center. That's the question to ask. That's what to do..." As he muttered on to himself, routing out his heavy cloak, setting water to boil on the small fire he had lighted earlier, he wondered if he had always talked to himself, if he had talked all the time when Silence lived with him.
